OFFICE OF PETITIONS

Applicant: Wilson et al.
Appl. No.: 10/780,296
Filing Date: February 17, 2004
Title: A1 ADENOSINE RECEPTOR ANTAGONISTS
Attorney Docket No.: 049542/283879
Pub. No.: US 2005/0119258 A1
Pub. Date: June 2, 2005

This is a decision on the request for a corrected patent application publication under 37 CFR 1.221(b), filed on July 29, 2005, for the above-identified application.

The request is DISMISSED.

Applicant requests that the application be republished because the patent application publication contains numerous material errors in the claims.

37 CFR 1.221 (b) is applicable "only when the Office makes a material mistake which is apparent from Office records.... Any request for a corrected publication or revised patent application publication other than provided as provided in paragraph (a) of this section must be filed within two months from the date of the patent application publication. This period is not extendable." A material mistake must affect the public's ability to appreciate the technical disclosure of the patent application publication, to determine the scope of the patent application publication, or to determine the scope of the provisional rights that an applicant may seek to enforce upon issuance of a patent.¹

The request for corrected publication cannot be granted because the request does not clearly point out the error in the publication and give an indication where the correct text for the material errors appears in the application.

Applicant is given 2 months to supply the required the information and submit a renewed request for republication.

¹Changes to Implement Eighteen-Month Publication of Patent Applications, 65 FR 57023, 57038 (Sept. 20, 2000), 1239, Off. Gaz. Pat. Office Notices 63, 75 (Oct. 10, 2000) (final rule).

A request for corrected publication need only point out what was printed incorrectly in the application, where the error occurs in the publication and where the correct text or drawing is found in the application papers. Marked up relevant copies of the applications papers and the pre-grant publication may facilitate processing of the request, where it is not readily apparent where the error occurs. If it is not clear why the error is a material error, further explanation may be warranted.

The applicant is advised that a "request for republication of an application previously published" may be filed under 37 CFR 1.221(a). Such a request for republication "must include a copy of the application compliance with the Office's electronic filing system requirements and be accompanied by the publication fee set forth in § 1.18(d) and the processing fee set forth in § 1.17(i)." If the request for republication does not comply with the electronic filing system requirements, the republication will not take place and the publication fee set forth in § 1.18(d) will be refunded. The processing fee will be retained.

Any request for republication under 37 CFR 1.221(a), must be submitted via the EFS system and questions or request for reconsideration of the decision, should be addressed as follows:

By mail to: Mail Stop PGPUB
